JENNIFER BRUNNER

for United States Senate

Courage to fight for Ohio

Jennifer Brunner earned the Profile in Courage Award from the John F. Kennedy Presidential Library and Museum for her achievement in reforming Ohio's election system, which resulted in a markedly improved process, with a record number of Ohioans voting in 2008.

Commitment and tenacity to get the job done

Jennifer Brunner gets things done. Her courage and independence are reasons her tenure as Ohio's first female Secretary of State has been one of the most successful in the state's history. She restored trust in Ohio's elections system, streamlined and made more accessible and accountable services to help Ohio businesses grow more jobs, removed social security numbers from the Internet, and established a groundbreaking, web-based roadmap about the quality of life in Ohio that allows everyday citizens to judge for themselves whether our government is performing on its promises.

Compassion for the people of Ohio

Jennifer Brunner values public service and understands that her job as an elected leader is to empower everyday Ohioans to work together to do for themselves, their families and their communities things they never imagined possible. She works with heart and persistence, because she loves her state and cares deeply about its future. Married to her husband, Rick, for more than 31 years and the mother of 3 grown children, Jennifer understands the conflicts families face when economic times are hard and change is needed. As Secretary of State, she supervised the state's 88 diverse county boards of elections, setting policies that were based on improving voting from the perspectives of voters. That kind of compassion and focus is just what we need in Washington, DC.
